GENERAL INFO

DESIGNED FOR MAINS WATER

Quick-Twist Undersink Filter with Tripla T2 LED 3-Way Mixer Tap

The Z1-T2 'tap & filter' package incorporates the latest Z1 filtration technology and the Tripla triple-action tap all-in-one system.

The Puretec Z1 reduces chlorine, taste, odour, chemicals, sediment and cysts, leaving all vital minerals. This innovative filter is easy to install, mounts horizontally or vertically and valve-in-head technology means the water supply is automatically cut off when you change the cartridge. The Z1 can be as easily replaced as changing a light globe!

The Tripla 3-in-1 mixer tap gives you hot, cold, filtered/or rainwater water, all from just one mixer. The filtered and unfiltered water have completely separate lines inside these taps which means there is no cross contamination between filtered and unfiltered water.

Enjoy water the way it should be, abundant, clear and beautiful tasting from your own water supply, any time of the day.

ADDITIONAL INFORMATION

Traditional compact design

The Tripla T2 gives you hot, cold, filtered/or rainwater water, all from just one mixer. The main handle controls hot and cold mains water, and the lever under the spout controls filtered mains/tank water. Just turn it clockwise and your filtered water is delivered via a separate tube and outlet, inside the mixer itself. There's absolutely no mixing of filtered and unfiltered water.

Hygienic Quick Cartridge Changes

The valve-in-head design shuts the water off automatically means no mess, the cartridge can be easily replaced - just like changing a light globe. Enjoy water the way it should be, abundant, clear and beautiful tasting from your own water supply, any time of the day.
