

iStone Round Basin

WD38499MB

iStone Round Basin 400 x 130mm Natural Marble

Natural Marble Stone basin 400mm diameter x 130mm high

Note: As marble is a natural stone, there may be slight variations in each individual basin's appearance

Because marble is a natural product it is therefore subject to colour variations, crystallization marks and surface variations.

This is part of the natural beauty of the stone. Marble is easy to maintain, however, with the surface being porous it does need a little care.

CARE AND USE

Marble and Natural Stone

Marble is very easy to maintain, however with the surface being porous it does need a little care. A regular quick wipe with a clean cloth & tap water, or methylated spirits dabbed on to a clean cloth, or dishwashing liquid and warm water can be used. This will break down greasy and oily residue from grooming products.

LIMITED PRODUCT WARRANTIES
