

CEILING DIFFUSERS

ECO DIFFUSER

Duct Size (mm)	Colour	Order Code
100	White	DCT0020
125	White	DCT0174
150	White	DCT0058
200	White	DCT0068

- Manufactured from ABS plastic.
- Designed for either supply or extract ventilation.
- Fixing flange included, screws required.
- Adjustable screw in centre cone.

DIMENSION INFORMATION

Cone Centres are designed to suit the reverse cycle systems. Cone Centres allow adjustable control of the airflow by moving the centre up or down.

This is achieved by a screwing technique. Clockwise decreases and shallows the airflow while anti-clockwise increases and deepens the airflow.

Duct Size (mm)	Face Size (mm)	Spigot Diameter (mm)	Spigot Length (mm)	Cut-Out Size (mm)
100	149	99	47	98
125	169	125	47	123
150	186	148	50	148
200	235	198	50	198
